

**WHAT PEOPLE ARE SAYING
MSAT STUDENT TESTIMONIALS**

"I couldn't possibly go back to the traditional style of education, I'd be way too far ahead. I'd be willing to commute anywhere for this kind of cutting-edge education."

-- Cameron Ghazzagh, MSAT sophomore

"I want to go to Metro because I want to stick with a program that's like MSAT. After MSAT I couldn't possibly go back to a regular high school, and I want to stick with my classmates. And after everything NUSD has put us through I could not go to one of their schools."

--Joanna Lamstein, MSAT Sophomore

"I am going to Metro because I don't want to lose the caring community I've been in where you can see who everyone is and not just glance past them like at traditional high schools. And the educational program is amazing. I did well in school before but here I've really grown and excelled. At MSAT I could express whatever interests I have and incorporate them into the projects we were working on."

-- Kaya Mey, MSAT Freshman

"It's worth it to commute to the city because I really like this kind of school and if I can't go to MSAT, I want to go to the closest thing to MSAT which is Metro."

-- Phoebe Bryan, MSAT Freshman

"I'm going to Metro because it's like MSAT, and MSAT is more my learning style. The teaching is done a different way that fits my personality and my interests, and it's fun. Looking at the seniors I can see what this kind of teaching does for you in the long run."

--Elisa Nordhoff, MSAT Freshman

"I'm going to Metro because this project-based kind of education teaches you how to deal with the people and personalities you're going to meet when you have to accomplish something in the real world. The Novato school board doesn't deserve the satisfaction of a majority of us attending a school that is under them."

--Arin Schwartz, MSAT Sophomore
